Design your own stinky card

## How to play

Shuffle the cards and deal to two players.

Each player takes the top card from their deck and looks at the categories under the image.

Pick a player to start. They choose a category and read out its value.

The other player reads out the same category and its value from their card.

Whoever has the highest value wins! The winning player takes both cards and puts them to the bottom of their deck.

The next player has their turn, until someone wins all the cards.

You'll find  
all these things  
in our museum!  
Keep an eye out  
if you get to  
visit us!

### WAR, PLAGUE & FIRE

In the 1600s, houses didn't have flushing toilets. Chamber pots (potties) were used instead.

They were often emptied out of windows straight into the street!

#### DID YOU KNOW?

A toad placed on the stomach was a treatment for the plague!

### MEDIEVAL GALLERY

Medieval doctors thought they could tell what diseases their patients had by the colour of their wee. Sometimes they even tasted it!

#### DID YOU KNOW?

Medieval doctors sometimes advised against bathing. Stinky!

### ROMAN GALLERY

In ordinary homes, toilets were near the cooking area so that food scraps could be thrown down the toilet!

#### DID YOU KNOW?

Romans used a sponge on a stick... instead of toilet paper!

### THE GREAT STINK

In a hot summer 160 years ago, a 'Great Stink' rose from the polluted River Thames. Poor drainage turned it into a deadly stinking sewer... Yuck!

#### DID YOU KNOW?

This led to underground sewage systems. Hooray!

### VICTORIAN WALK

This urinal from High Holborn has marble panels and a glass cistern. Fancy!

#### DID YOU KNOW?

You had to 'spend a penny' to use one.
