

# TAIL TRAIL

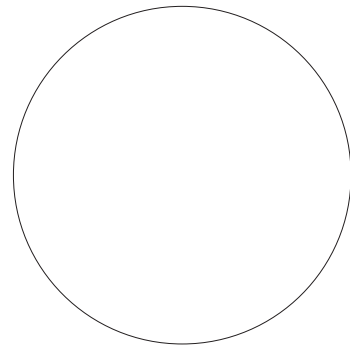

Can you help Riley Ratcliffe, a city rat? Help her find her relatives around the museum to complete this family tree.

Write the names of her ancestors on the branches, and choose your favourite fact from each display or gallery to create a keepsake for you and Riley.

A family tree diagram consisting of 12 empty, ornate rectangular boxes arranged in four rows of three. The boxes are intended for writing names and facts. The boxes are arranged in a 4x3 grid, with the top row being the furthest from the subject and the bottom row being the closest. Each box has a decorative, scalloped border.

Riley Ratcliffe
