

Be Green...

What you can do to help save the planet

The Museum of London is working to make our destination more eco-friendly, but we need your help.

We would like you to think about how you can all reduce our impact on the environment by making choices. As a visitor we believe you have a very important role to play in helping us to conserve our natural assets and become a more sustainable destination.

Here are our recommended tips on how you can help:

- **Recycle maps: Picked up a map today?** Please hand this back to our reception desk, enabling us to print less and re-use these maps for our future guests.
- **Permanent maps:** We also have laminated Maps available ask at our Front Desk for these.
- **What's the greenest way you can get to the Museum of London?** We have 50 Barclays Hire Scheme Bikes just under the Museum for public use, you don't have to be pre-registered and there are plenty of docking stations in Zone 1 of London.
By using a bike instead of motorised transport you are helping lowering green house gas emissions into the atmosphere.
- **Where did you purchase your Lunch from?** Our **benugo** cafés use locally sourced produce and fair trade coffee. In London there are many Markets where you can buy Locally sourced food, why not give the London Farmers Market a try on www.lfm.org.uk/faq/
- **General recycling:** when you have waste or anything you would like to throw away from clothes to food think about whether or not it's reusable! You never know!
- **Bought something nice from our shop?** If you bought one of our biodegradable museum plastic bags, we encourage you to re-use it! You won't only be spreading the word of the museum but will be able to use the bag over and over again!
- **The Museum of London is a member of the Green Tourism Business Scheme (Silver Award):** please let us know how we are doing, by filling in one of our comment cards.
