

# Creative Strategic Planning

Tuesday 5th November 2019

## Aims for the day

The purpose of the day is to provide participants with the knowledge and confidence to lead a strategic planning process that is creative, collaborative, realistic in its time requirements and well suited to our uncertain and challenging environment.

## Timetable for the day

In the morning we will focus on learning about and working with three key strategic planning tools. In the afternoon we will explore how to use the insights from working with these tools to create a robust, deliverable strategic plan. All of the sessions will be creative and interactive; participants will be encouraged to work on current business planning issues throughout the day. The timetable is flexible and can be adjusted to reflect participants' interests and issues.
